

# **PHOTOGRAPHY CRAFTS**

## **Company collage**

You will need:

Photos of the girls from the week before.

A3 piece of black card

Glue - photo glue sticks are recommended but not essential (enough to share around)

Scissors (one per girl)

Procedure: as a group (if a big group split into two and make two collages) cut out and paste the photos together to create a collage on the black card.

## **Mosaics**

You will need:

Glue sticks

The photo scraps from last week (this will probably not be enough so bring some extra photos to use if needed)

A5 piece of paper for each girl (or size to fit the decorated frames done earlier in the achievement)

Pencils

Procedure:

Cut the photo scraps into small pieces of similar size.

Draw a simple shape/picture on the piece of paper and use the scraps of photos to fill in the shape mosaic style

Place the final pictures in the frames decorated earlier by the girls.

## **The girl's creation**

You will need:

Hot glue guns and hot glue sticks (numbers will depend how many girls you have)

Used film cartridges (go to any photo mini lab a week in advance and ask them to collect the old cartridges for you),

Tape

Craft glue

Any other items you think would be useful (ie cardboard rolls, juice container lids etc)

Procedure:

Put all the equipment on the table and give the girls the task of creating some thing out of it. The aim is to be creative and build group skills within the topic of photography.

## **Make posters**

You will need:

Bibles

Old magazines

Scissors

Glue sticks

One piece of cardboard between 2 girls

Procedure: ask the girls to find a Bible verse (or give them a verse) and to find picture to make a poster that reflects the verse
